08 9586 3866

At Drum Print we can print a tiny run of 50 business cards or a massive 250,000 brochures. We print all manner of large and small publications. Our Print Professional Bizhub Digital Printers give us an amazing flexibility to produce one off, short or medium runs very quickly at very competitive prices. For long print runs, our traditional full colour press (and in-house metal printing plates) combine consistent high quality with high speed production. We can bind, matt or gloss laminate, drill, fold, photocopy, goldfool, staple, stitch, collate, guillotine, and much much more.

Business Cards

Direct Marketing works!

We can arrange distribution as low as \$40.00 per thousand. Get your business literature in enough locations, enough times and you will get new business and more sales. Just check your mail box, if this did not work, why would all these large companies waste their money?

A small order can still be cost effective!

Just because you use very little printing, Drum Print can still help you. So, when someone is having a 21st or a 50th and you need a few invites, we will be happy to print them for you. If you have a part time lawn mowing round with a small number of customers, no problem, we can do a few flyers, business cards & pads if that is all you need.

* All prices exclude gst.

Your artwork or ours?

Supply your own art or our professional designers can produce fabulous artwork for your business. Seen a "look", style or colours you like? Bring in an example and we can design to your corporate look or design a complimentary original style.

Artwork requirements

When you supply your own artwork please supply a hard copy proof print out. This allows us to check all fonts and images have correctly embedded. We want every job to look great so here are a few suggestions to keep quality right up and artwork costs down.

Business Cards	90mm x 55mm
Postcards	105mm x 148mm
DL Cards	99mm x 210mm

Bleed Please allow 3mm bleed extra around all sides of artwork.

Borders To ensure a pleasing result we suggest you do not use borders or have text within 5mm of the edges of your document.

PDF High resolution Pdfs are our first choice of art file format. Please embed all fonts and ensure images are high resolution, 300dpi CMYK.

RGB Images to be printed are automatically converted to CMYK. Changes from RGB to CMYK may result in unexpected colours.

OTHER FORMATS will require an extra conversion cost.

TURNAROUND Times for small jobs is 3-5 days. Extra finishing and embellishment will extend time.

COLOUR Precise colour matching can only be achieved to the proof we supply. Some colour shift may occur if printing without proof, i.e. from computer screen, etc.

Usually our estimates for artwork are based on needing one set of alterations, at the worst two sets. Keep costs down by making all alterations in one sitting, and consult all parties who need to see and comment on the artwork at the one time. Alterations requested after the FIRST proof are part of our standard service. Extensive alterations requested after the SECOND proof might be charged as an extra above the quoted price if the job runs over time.

Drum Print, a little bit about us...

At Drum, we produce all our work in our Mandurah factory ...

Drum Print is Mandurah's largest commercial printer with a comprehensive range of high quality digital and traditional equipment. We can produce a wide range of finishes and products at extremely competitive prices, with very quick turnaround times. In fact, all these can be produced within 24 hours if needed. Our latest Konica Bizhub Print Professional Digital Printers produce high quality, short or medium run magazines, postcards, catalogues and books. Call Drum Print (or our Rep can come to you) to find out how we can help with your next print project.

• Yes, we deliver!

We're keen on Green

At Drum Print we are participating in "The Green Stamp." This is an Australian Government guidelines program for environmentally friendly printing practices. At Drum Print we use:

- chemical and water free development of metal printing plates (no waste water to septic)
- recycling of metal printing plates
- recycling of all waste paper
- ink toners recycled by Planet Ark
- use natural lighting in work areas
- wooden pallets re-used or recycled
- vegetable oil based printing inks
- recycled paper used wherever possible
